

4-6 Grade Activity Guide

Silly Talent Show

This is a fun game to illustrate how we all have to discover God's purpose for us, which is sometimes different from what we thought!

Activity Objective

Creatively figure out a new purpose for a random item, and sell it to your family!

You'll Need

- Random Items around the house. *Item ideas: pencil, lamp, pan, spoon, box of tissues*

Instructions

1. Divide family members into teams.
2. Teams choose one random item.
3. Explain: Each team must create a new use for the item their team has chosen, and then sell it to everyone. *Example: A bracelet could become a "hula hoop for lizards that will create a whole new trend in both pets and pet/human entertainment."*
4. Teams brainstorm their item's new use and selling points for a minute or two.
5. Teams demonstrate the selling points of their item to the rest of the group—as if they were on the Home Shopping Network!
6. The team with the best pitch wins!
7. Repeat with different items as desired
