

4-6 Grade Activity Guide

Digitation, Examination, Calculation, Proclamation!

This is a just for fun game.

Activity Objective

Win the most rounds of a speed-adding game so you're the last remaining competitor.

You'll Need

- No materials needed

Instructions

1. Pair 2 family members together
2. Pairs stand facing one another, holding their hands behind their backs.
3. Members stick out some fingers on each hand. (No bent fingers).
4. On the count of three, pairs bring their hands in front of them.
5. The first person to say the total number of fingers sticking out on all four hands wins.
6. Losers sit down and become the cheering section, while winners find a new partner.
7. Repeat until you have one winner who (of course) you celebrate with thunderous applause!
8. Play entire tournament again if time allows.
